### PROFILE

2 years experienced Software Engineer with a demonstrated history of working in the computer software industry. Skilled in Java, Spring boot, Hibernate, Message Queue and Restful webservices. Actively improving my problem solving skills. Strong IT professional with Masters in Computer Applications from reputed college Rollwala computer center (Dept. of computer Science - Gujarat University ).

### EXPERIENCE

#### GlobalVox Inc. ( Since Jan-2020 )

I am a Java developer here, working with Springboot framework and distributed microservice-based architecture that comprises various technologies. In total I worked here with 4 projects, 3 of them were MVC projects with backend in springboot and frontend in thymeleaf. 1 project was microservice-based project with distributed databases. 1 project name DAAS (Data as a Service) i've created from scratch with stripe payment gateway integrations. I've worked in VMI which is used by USA defense.

#### 2000K Solutions ( June-2019 to Dec-2019 )

I worked as a Web Developer, with the projects that comprises technologies such as, JSP, Servlet, PHP, mysql, J2EE, HTML, CSS and JS.
